Introduction

- For whatever disagreements may exist as to the nature of mankind, It is easily understood that for all that we are we have Free Will and use it to Question Everything. and to make an impact on the World around us.

Our Need to BE

- This need to own begins with the Free Will TO BE OURSELVES

Self Ownership

- The Socialism speaks of Democracy but defines it as everyone being the SAME and Equality as Equal Outcome which is the lack of Personal Liberty; a lack of Personal Choice. Not controlling your own destiny; Not piloting your own "Ship of Life". That control is instead in the Hands of the Ruling Elite.

I.D. Card

- Everyone should have an ID Card.
1. If you are hiring a worker, you take your SmartPhone and take a picture of the card and a picture of the person and email it in to the Government. In mere moments you should be able to know if that person's card is real and if that person is a citizen. If an employer hires an Illegal Alien, they should be fined 3 years of that employee's income.
 2. There should be NO S.S. Number used for an I.D.
 3. Cards should include
 - Citizen
 - Guest Worker (work visa)
Renewed every 5 years
Required to leave for 3 years every 5 years.
 - Guest Student (student visa)
Must leave 3 month after leaving School.
 - Tourist
 - A. Stay 6 months less 1 day every year.
or they can choose
 - B. Stay 12 months less 1 day every 3 years.

- Immigrant (green card)
Stay up to 10 years. (before citizenship applied)

4. Children born in America of non-citizen Mother
should NOT be automatically be allowed citizenship.

I.D. Stamp

- Exact time and rough location
as an individual interaction (purchase, a thought etc) stamp
as identifier.

Key

- Your house is ONLY locked if YOU hold the key.

S.S.#

- During the 1980's
the Supremes ruled that a S.S.#
cannot be used as a general I.D.
and only used for Government Business
in which Taxes are the issue.
- The Government response
is to link the number to everything government
and issue it at birth rather than when you get your first job.
They changed the laws so they could ignore the ruling.

Self Worth

- You have no idea how strong the pull to feel worthwhile is.

Character

Honor

Pride

Duty

Sacrifice

Loyalty

Morality

Self Protection

- Unless you can protect yourself, you do not truly own yourself.
- Remember- police are reactive Not pro-active.
Only you can be pro-active defending your family, property, life etc.
Police show up only AFTER a tragedy has struck.
You may never and very well could never need a firearm
but to have the right to have said firearm
is something very unique in this world.
Value this right.
- "No free man shall ever be debarred the use of arms.
I prefer dangerous freedom over peaceful slavery."-
Thomas Jefferson
- There is nothing more dangerous, and no greater threat to government overreach
than a free and armed citizenry.

Gun Control

- I am a strong supporter of gun-control.
- I find that a good nights rest and limiting my caffeine intake
greatly improves my accuracy at the firing range.

Self Determination

- Our SPECIES is called MAN
because we MANIPULATE the world around us
and by extension desire to own the product of that manipulation
by our MINDS and our HANDS.
- We are creatures of "FREE WILL
and thus we crave the LIBERTY to express it.
- This is how we know that WE OWN OURSELVES;
our MIND, our HEART and our WILL.
Those three parts we often call "OUR SOUL".

Responsibility

- Shit Happens

Personal Liberty

- LIBERTY changes the heart
so it cannot change back.

.... **except thru fear.**

- Give people FEAR
and they will exchange their LIBERTY
for the hope of SECURITY.

.... **but**

- The taste for LIBERTY always remains.

.... **so**

- Those who speak of FEAR
are always the enemy of LIBERTY.

Free Speech

- There is no right to not be offended.
One cannot have free speech
without someone being offended.
- How important ONE VOICE can be.

Freely Growing Our Character

- By owning ourselves, we have the Liberty to GROW our Character.
- When he have no Liberty,
character is not needed, only blind obedience.
and hopeless existence.
- Our chosen Actions become our Character
and our Character becomes our Destiny
- What we DO becomes what we ARE
and what we ARE determines where we can go.
- This differentiates the "JUST" Human from the merely Functionary one.

Inequality

- You cannot have Democracy without Personal Liberty.
Personal Liberty creates unequal outcomes

and Unequal Opportunity;
but NOT the lack of Opportunity itself.

Gender

Inequality

- For every 2 men who graduate college, 3 women do.
- Women now out-earn men in the younger age bracket. (22-30)
- There are 10 men in jail for every women, despite not committing much more of the crime.
- If a 14 year old girl and a 14 year old boy have sex, the boy is the one listed as a sex offender.
- There are places in this country where 1/3 of the men are ineligible to vote because they are felons.
- Women get the child in any divorce situation by default, and can usually get most of the money and a paycheck too.
- If a woman doesn't want a child, she can abort it.
If a man doesn't want a child, he has no say in the matter and the government will put him in jail if he doesn't submit to being used as an ATM for 18 years.
- Women won. It's time to help out the men, who are the ones at real disadvantage today.

Public Liberty

- "...No man, or set of men, are entitled to any exclusive or separate emoluments or privileges from the community."-
-Virginia Declaration of Rights, 1776
-

Our Need to BELONG

see also : Social Booklet

- Exclusion can cause Envy and Alienation.
- A balance between Privacy and Community

Grouping

- People often discount their Individual Judgement to the Collectivist Judgement of the group.
- Groups Think can rationalize and cause members to lose sight of the truth.
- Group Rulers sometimes use secrecy or fear (such as fear of exclusion) to manipulate individual behaviour within the Group.
- Groups can bring out the best in people but also sacrifice their individuality and individual beliefs and standards allowing them to also submit to doing terrible things.
- People easily lose themselves in a spectacle.
- Most people are group creatures and need the perceived comfort of that social structure.

Group Rulers

- Leading a herd can be achieved by either PUSHING or PULLING
- The Herd members can fight/resist a PUSH far easier than a PULL.

Flocks

Shepherds (10%)

- Shepherds PULL the herd thru loyalty and respect.
(sort of like Colonel Potter on the TV show "M.A.S.H.")

Sheep (80%)

Wolves (10%)

Herds

Herders (10%)

- Herders PUSH the herd thru fear and force.
(sort of like Major Margaret Houlihan on the TV show "M.A.S.H.")

Goats (80%)

Wolves (10%)

Wolves

Some Because They Are Unique

- Some people are "Lone Wolves" because they have a unique ability or viewpoint.
- Some of the greatest ideas and achievements come from Lone Wolves,

Some Because They Have Contempt

- Some Lone Wolves are lone because they have contempt or disregard for the herd.
- Such wolves might then band together with like-minded wolves, to multiply the power of their predatory effects.

Our Need to QUESTION

see also : Info Booklet

- When you not always question everything you end up living in a fog of ignorance and deceit. where you do not know the difference between true or false; good or bad; right or wrong.

The Logical

True and False

- It is often said that due to the limited scope of our awareness we cannot know truth.

but

We can usually measure fact from fallacy.

Fact and Fallacy

- The perceived truth or falsehood.
- People often use "Gut Judgement" and then later adjust truth to fit.

The Moral

Right and Wrong

- The Objective.
example : It is WRONG to commit Murder.

Good and Bad

- The Subjective.
example : It may be GOOD to Murder a Mass Murderer.

Our Need to KNOW

see also : Info Booklet

Why Know ?

Curiosity

- Some seek answers out of a simple and pure sense of curiosity.
They look at the world around them and ask WHY.

Fear

- Some seek knowledge because they have a fear of the unknown.
Fear is the most dangerous reason for wanting knowledge
because of what fear brings with it.
 - Anger (fight or flight)
 - Hate (violence leads to violence)
 - Suffering

example : A finger wagging church of Fear, Guilt and Accusation;
supporting evil in the name of good.
and putting Souls in danger.

Hopelessness / Despair

- Some seek knowledge in order to make sense
out of what is otherwise perceived as a hopeless existence.
- Hopelessness, such as living forever on Welfare
or living with a Physical or Mental disability or an Addiction,
can lead to self-destruction
and anti-social behavior
 - My life is useless, so I do whatever I want.
 - Because I hurt, I hurt others.
 - I have paid with blood and tears; now they pay me in blood and tears.

Can We Know ?

Intelligence

- Intelligence and Common Sense
are too often inversely proportional.

- Our minds are tiny sponges made of 60% fat (same as Cheddar Cheese)
- Our Left Brains rationalize in a LINEAR fashion while reality is a FRACTAL experience,
- There are many things that are too big or complex for us to ever get our minds around.
- There are many questions that have no answers, even with the best computer modeling.

Should We Know ?

- Will the truth always "set you free" ?
- When is it right to conceal the TRUTH ?
(if so, who decides ?)
- What if a certain knowledge could cause HARM ?
- Can TRUTH move you backwards or cause stagnation ?

Our Need to ACHIEVE

see also : Econ Booklet

- Big things have small beginnings.
The world around us is invented by about 0.5% of the population
and managed by about 5.0% of the population.
The rest are support staff.

- Steve Jobs' Commencement Address

http://www.youtube.com/watch?v=UF8uR6Z6KLc&feature=player_embedded

Pride

- Climb the mountain not so people can see you,
but so that you can better see the world.

Opportunity

- In poor nations Democracy and Liberty mean nothing
without Opportunity.

Our Need to OWN

see also : Social Booklet

see also : Economic Booklet

- Everybody needs their stuff.

Poverty

- Poverty is bleak
and cuts off your long-term brain.
- It is not worth it to me to live a bleak life devoid of small pleasures
so that one day I can make a single large purchase.
I will never have large pleasures to hold on to.

Hopelessness

- You grab a bit of connection wherever you can to survive.
You have no idea how strong the pull to feel worthwhile is.
It's more basic than food.
You go to these people who make you feel lovely for an hour
that one time, and that's all you get.
You're probably not compatible with them for anything long-term,
but right this minute they can make you feel powerful and valuable.
It does not matter what will happen in a month.
Whatever happens in a month is probably going to be just about as indifferent
as whatever happened today or last week.
None of it matters.
We don't plan long-term because if we do we'll just get our hearts broken.
It's best not to hope.
You just take what you can get as you spot it.
- We will never feel hopeful. We will never get a vacation. Ever.

Goals

- We know that the very act of being poor
guarantees that we will never not be poor.
It doesn't give us much reason to improve ourselves.
- Always makes you feel worse for having tried and failed yet again.
Better not to try.

Beauty

- Beauty is a thing you get when you can afford it,
and that's how you get the job
that you need in order to be beautiful.

Jobs

- We don't apply for jobs
because we know we can't afford to look nice enough to hold them.

Money

- When you never have enough money it ceases to have meaning.
I imagine having a lot of it is the same thing.
- No matter how responsible you are you will be broke in three days anyway.
- I make a lot of poor financial decisions.
None of them matter, in the long term.
I will never not be poor, so what does it matter

Shelter

- Most motels now have a no-credit-card-no-room policy.

Sex

- We're aware that we are not "having kids," we're "breeding."

Drugs

- I am enraged and beaten down
and incapable of accomplishing one more thing,
I can smoke and I feel a little better, just for a minute.
- It is the only relaxation I am allowed.
It is not a good decision, but it is the only one that I have access to.
It is the only thing I have found that keeps me from collapsing or exploding.

Our Need to CONTROL

see also : Govn Booklet

- The need to control comes from fear of being controlled and the threat that represents to our "FREE WILL".

Power

- Some seek knowledge because they feel powerless and seek power.
 - FORCE, Guns
 - GREED, Money
 - LUST, Desire, Passion, Love
- Power is nothing without control and the greed and lust associated with some forms of power often blur the ability to know when to pull back and when to know that control is often about what you DON'T do.

Patriotism

- Socialist politicians often skip July 4th parades and flag displays because such things energize only those who love Liberty, and sparks such a love in the young, and help to boost the turnout of liberty loving adults on Election Day.
- Fourth of July celebrations in the United States shape the nation's political landscape by reinforcing belief in Liberty and increasing participation, in Primaries and Elections.
- If elections were held soon after, it would benefit Liberty.
- Fourth of July celebrations in counties population by more Liberty loving people socialize children into an appreciation of the power of Liberty.
- Socialists gain nothing from July 4th parades, There is no evidence of an increased likelihood of identifying as a Socialist indicating that Fourth of July shifts preferences toward Liberty rather than increasing Socialist Tyranny.
- The three key findings of those attending July 4th celebrations:
 - When done before the age of 18,

it increases the likelihood of a youth embracing Liberty.

- It raises the likelihood that parade watchers will vote for Liberty
 - It boosts the likelihood a reveler will vote.
 - It increases the chances they'll make a political contributions.
- What's more, the impact isn't fleeting.
The impact on political preferences is permanent,
with no evidence of the effects depreciating as individuals become older.

Civil Disobedience

Traffic Light Cameras

- Aiming a Laser Pointer at a speed camera,
(especially at night). will break it.

Parking Meters

- Open access to places
- It drives businesses out to the suburbs where parking is free.
- Parking meters are a rude form of revenue streaming.
- Police and city officials say meter are important
to keep someone from hogging a parking space too long,
but a meter/sensor can detect a car
and photo that car's plate if it there too long.

Government WebSites

- Hacking their WebSites makes government more inefficient.

Politicians Respect Fear

- Make them more worried about public power than party power.
- Make politicians records open and easy to review.

Police Cars

- Make them go on foot and interact with the public more directly.

Our Need to LET GO

see also : Environment Booklet

Wisdom

- We don't have time time has us.
We are prisoners of time.
and our life on Earth is only rented for a time.
- The more answers we learn, the more questions we have
until one day we come to realize that we have more questions than time
and we shall pass away will only a sliver of knowledge
and more full of questions as when we came in.
.... Hopelessly Ignorant.
- So Wisdom's final lesson
is that the Questions are far more important than the Answers
because it is thru the quality of our questions that we grow.
- This is one reason we seek Religion.

Our Need to REPRODUCE

Sex

Marriage

- There should be advantages (taxes etc) for Marriage and children because if those situations stress and break, the social cost can be large.

Child

Defining

Protections

Responsibilities

Teenager

Defining

- If you are past the "Age of Consent" should you still be legally considered a child? or should teenagers have an in-between legal definition.

Protections

Responsibilities
